

How To Make Your Patio More Inviting

Is your patio as beautiful, stylish and inviting as the rooms inside your home? Does it welcome you to enjoy your morning coffee, an afternoon nap, or an evening meal? If it doesn't then maybe it is time for you to update your outdoor living space and transform it into a beautiful extension of your indoor rooms. Treat your patio just like you would any other room in your home, make it beautiful, make it functional, and above all else, make it a reflection of you.

The first step to making your patio a place the entire family can enjoy is to decide how you want to use the space. Before you start picking out your outdoor furniture and potted plants, you need to consider how much time you want to spend in this outside room. In the milder temperatures of the spring and fall a patio can offer inviting breezes and a comfortable place to enjoy, but as summer temperatures start to rise, glaring sun and heat can chase you inside and have you running for the A/C. By the same token, when cool fall temperatures plummet and winter's air is freezing, you again are forced to retreat to the indoors. Palm Beach Enclosures can offer you many ways to turn your patio into a space you can enjoy year round.

Palm Beach Enclosures in Lebanon can offer you a variety of solutions that will beat the heat of summer or the frigid temperatures of winter. If you want to keep the outdoor open feeling of your patio, you might want to consider a patio cover. This would allow you to be outdoors, but afford you some partial shade. This could make those sunny afternoons more comfortable for you. The covered patio can have a beautiful open beam construction that will still allow for starlight viewing, or be completely closed to protect you on a rainy afternoon.

Another option you might want to consider that offers even more protection is a screened in patio. Your screened in patio would invite the balmy breezes, but put a stop to pesky insects. This is a wonderful place to sit and enjoy your morning coffee, the afternoon newspaper, or a good book in the rain. Palm Beach Enclosures will custom design your patio enclosure specifically suited to your wants and needs. They offer free estimates with a guarantee to beat any written estimate by 10%, so you know you are getting the very best value for your money.

If you find yourself looking longingly at your patio and waiting for spring, or wrapped in blankets and shivering outside just to enjoy the view from your deck or porch, allow Palm Beach Enclosures talk to you about adding a sunroom to your home. A sunroom gives you the year-round use of your deck, patio or porch, gives you the privacy you want, and the view you love, while adding to the value of your home. When you add a Palm Beach Enclosure sunroom to your home you know that you're not just investing in your family's enjoyment, but that your financial investment is sound as well.

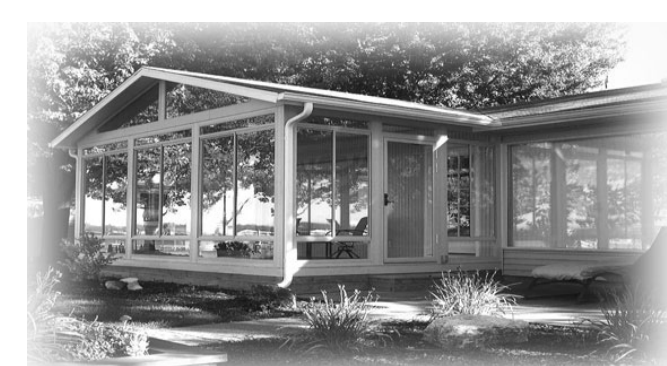

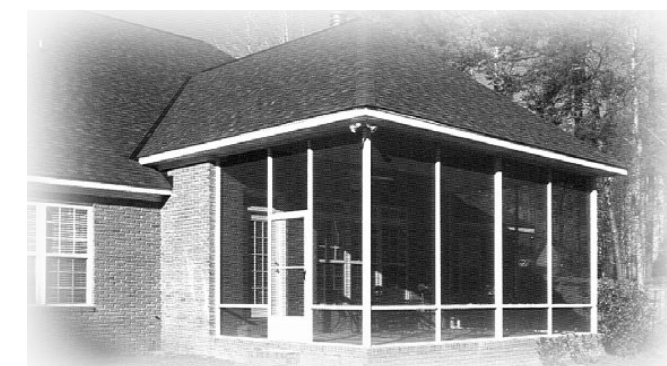

Palm Beach Enclosures has been helping Wilson County residents enjoy their outdoor living spaces to the fullest for more than twenty years. They have a commitment to quality and excellence that is unsurpassed by anyone. You know that when you add a Palm Beach Enclosures' patio cover, screened patio, deck, sunroom or solarium to your house that you are getting the very best for your investment. They strive to make your sunroom or enclosure compliment your home and not look like an addition that has been tacked on as an afterthought. Their attention to detail and your satisfaction is their

first priority. The owner of Palm Beach Enclosures will do an onsite inspection of your project to make sure that you receive the quality and service that you deserve. Your inspection will include checking your roof, electrical systems and the site where your new room will be built. They go the extra mile to be sure that you get a professional and safe installation.

With complete control of quality and design, Palm Beach Enclosures will create the atmosphere and functionality that you want for a price you can afford. If you have been considering updating your patio, call Palm Beach Enclosures today for your free estimate.
